Khiva Restaurant in Khorezm is one of the best and finest restaurants in Khorezm. It offers many services and products that its quantity is virtually uncountable, thereby huge number of visits by foreign tourists and local people. We have excellent trained waiters and waitresses who possess contemporary restaurants skills which are sufficiently modern or more than European restaurant workers. Day by day, the number of clients is increasing, thanks to our workers and their services.

# Summary

This project is created according to single strict rule:

" **All team members MUST be present while making any kind of contributions to the project** "

Hence, every team member is well aware of all contributions made to the website. All codes are done by group effort, getting all minds together in one point. It has been great experience for all of us in web development, especially in helping and checking each other's work.
